# Brainstorming ideas

# Youth engagement in idea labs

Where are you/we in the possibilities of implementing a virtual idea lab?
Is that not an option on the table right now?
Something to think about: How can the AOO be adapted to these remote times?

Directions:
Please share your responses in the chat box first and then we will share and open up to discuss.

# Alternatives: what does that look like?

The possibilities are pretty much endless.

In a breakout room with a partner/trio, brainstorm what it can look like to engage youth during these times?

Feel free to highlight something that is working in your own work right now?

# RESOURCES/ TOOL/ TRAININGS

What resources/ tools do we need to bring some of these ideas/concepts to life?

Open discussion
