Discussion Questions

1. Who is our audience for this messaging? Is it only youth? Parents? Bystanders?
2. What are our critical messages about bullying?
3. What do we want our audience to do with the information? Do we want them to go to a website? Do we want them to share the message or do something else specifically with it?
4. What are measurable, obtainable goals for this initiative?
5. What type of contractor services might be necessary to achieve these goals?
6. Is there anyone who is not in the room who needs to be? Are there recommendations as to whom the Committee should contact?
7. What information or clarification is needed before the next meeting? Are there any experts the Committee needs to hear from?
