Meeting Notes

On July 15th, 2019, the Youth Leadership Institute partnered with the statewide Youth Innovation Project Planning Committee to facilitate a Youth-Led Innovation workshop to support the committee in facilitating an Innovation Idea Lab in Summer 2019. The objectives for the training are below:

- Equip YIPPC to think innovatively and creatively about addressing mental health issues facing youth in California in partnership with adult allies.
- Prepare YIPPC to facilitate and lead a mental health innovation idea lab in 2019.

This webinar equipped Committee members to think creatively and prepare them to facilitate the Idea Lab. The Committee members also discussed their goals for the Idea Lab: to bring together a diverse group of youth and stakeholders to generate ideas and think innovatively to create mental health opportunities in California schools and build partnerships with stakeholders and counties moving forward. The Idea Lab will place youth at the center of the planning and idea generating process. Committee members discussed ways to create a creative and inviting environment and practiced innovative thinking as a group. They then learned about and discussed various mindsets that promote innovation, as well as the role of the Committee at the Idea Lab as actively learning and listening, facilitating, creating an innovative environment, and setting the

tone for a productive and thought-provoking day. The Committee members lastly learned examples of facilitation team roles, which will help the YIPPC to host a productive and positive Idea Lab.

Next steps:

The Youth Innovation Project Planning Committee will meet on July 31, 2019 in Oakland, CA.
