

Population Level Outcome Measures

The contract was approved by the Mental Health Services Oversight and Accountability Commission in Orange County on April 27, 2018. At the same time, the staff recommended contracting with the Regents of the University of California, University of California at Los Angeles for \$1.2 million, less than the authorized budget.

PURPOSE OF THE CONTRACT

The purpose of this contract is to develop and execute a plan to identify, gather, maintain, display and disseminate key metrics of the negative outcomes of mental health challenges and unmet needs in California.

MAJOR DELIVERABLES IN THE CONTRACT

The five major deliverables are: 1) Work Plan, 2) Outcomes Reporting Draft Report, 3) Outcomes Reporting Final Report, 4) Data Library and Data Management Plan, and 5) Data Fact Sheets and Data Briefs.

MAJOR WORK EFFORT

The major work effort of this contract is to develop, through an extensive public engagement effort and background research process, support for datasets of recommended and feasible measures relating to:

- negative outcomes of mental illness,
- prevalence rates of mental illness by major demographic categories suitable for supporting the evaluation of disparities in mental health service delivery and outcomes
- the impact(s) of mental health and substance use disorder conditions (e.g., disease burden)
- capacity of the service delivery system to provide treatment and support
- successful delivery of mental health services
- population health measures for mental health program client populations

Additionally, the contractor is to deliver 10 data fact sheets and 10 data briefs relating to the outcome domains identified above.
