# Full Service Partnership

A PATH TO TRANSFORMATIONAL CHANGE

**CBH**  
Commission for Behavioral Health

# The Potential of FSPs

We know FSPs have the potential for immense impact, but providers lack the tools necessary to fully realize this potential.

**Crisis services**

**-14.6K**

**Psychiatric admissions**

**-27K**

**Hospital in-patient days**

**-250K**

# Timeline

**February 2023-** Commission approved first biennial FSP report (2022) to the legislature as **mandated through SB 465**. Report identified data quality, mandatory minimum funding levels, and insufficient technical assistance as key issues. Commission identifies FSPs as key priority.

**May 2024-** Commission hears from consumers, county behavioral health staff, and FSP providers on key opportunities and challenges to improve FSPs statewide.

**February 2024-** The Commission **authorizes a set-aside of \$20 million** of Mental Health Wellness Act funding to strengthen Full-Service Partnerships and asks staff to present a specific funding proposal at a future meeting

**May 2024-** Commission hears from colleagues at DHCS, and partners at HBGI and Third Sector on extensive learning efforts on ways to improve FSPs.

**August 2024 -** The Commission **approves the allocation of \$10 million** in Mental Health Wellness Act funds to support the capacity building and technical assistance efforts as specified in the FSP Funding Proposal.

**March 2025-** Commission approves its second biennial FSP report (2024) to the legislature which includes recommendations for investing in capacity building and technical assistance around performance management.

**May 2025:** FSP Request for Proposals presented to the Commission for approval for release

# RFP Specifications:
