

County Name	Innovation Project Name	Commission Approval Date	Amount Approved	Project Description
San Mateo	Cultural Arts and Wellness Social Enterprise Café	8/27/2020	\$ 2,625,000.00	Filipino/a/x youth to collectively address culturally relevant problems in their community, while also serving as an opportunity for at-risk youth to receive employment training, and leadership development.
Modoc	Electronic Behavioral Health Solutions (eBHS) and Innovations and Improvement Through Data (IITD) - EXTENSION	10/12/2020	\$ 91,224.00	Modoc County requested an additional \$91,224 of Innovation funding for their eBHS and IITD project to address the County's constant challenge to adequately collect, process, and interpret data for outcomes measurement. This project would increase the quality of behavioral health services they provide by enhancing their ability to collect, analyze, and interpret client data, and to use the data collected in a meaningful way for improvement of client outcomes. (Original plan was approved in 4/2017 for \$364,896 - this extension adds another \$91,224 and one year project duration)
San Mateo	Co-Location of Prevention and Early Intervention Services in Low Income Housing	11/16/2020	\$ 925,000.00	San Mateo County requested up to \$925,000 of Innovation spending authority to provide prevention and early intervention services including behavioral health resources, supports, screening, referrals and linkages to young adults, ages 18-25, on-site at affordable housing properties, minimizing stigma and reducing barriers to accessing behavioral health care.
San Mateo	PIONEERS (Pacific Islanders Organizing, Nurturing, and Empowering Everyone to Rise and Serve)	12/9/2020	\$ 925,000.00	San Mateo County requested up to \$925,000 of Innovation spending authority to provide prevention and early intervention services through a culturally relevant behavioral health program for Native Hawaiian and Pacific Islander (NHPI) college-age youth that prioritizes the mental wellbeing of students and their respective communities through empowerment, leadership and advocacy.
Santa Clara	Addressing Stigma and Trauma in the Vietnamese and African American/African Ancestry Communities	2/25/2021	\$ 1,753,140.00	Santa Clara County requested up to \$1,753,140 of Innovation spending authority to increase knowledge of mental health and access to mental health services in diverse communities (primarily Vietnamese and African American/African Ancestry) who have historically had low levels of access to needed mental health services

San Francisco	Culturally Congruent and Innovative Practices for Black/African American Communities	3/25/2021	\$ 5,400,000.00	San Francisco County requested up to \$5,400,000 of Innovation spending authority to identify, implement, and test non-traditional methods of treating/healing mental illness, reduce stigma, incorporate culturally adaptive interventions to service the Black/African American community, and develop a Wellness Curriculum Training
Sonoma	Nuestra Cultura Cura Social Innovation Lab	4/20/2021	\$ 736,584.00	Sonoma County requested up to \$736,584 of Innovation spending authority to increase knowledge and access to unserved or underserved groups (particularly the County's large Latinx population) and to increase quality of mental health services, including better outcomes.
Fresno	CA Reducing Disparities Project Evolutions	4/22/2021	\$ 2,400,000.00	Fresno County requested up to \$2,400,000 of Innovation spending authority to increase access to mental health services to underserved groups and to increase the quality of mental health services, including measured outcomes by working with three existing culturally responsive, community-defined, and innovative implementation pilot projects, their participants, and stakeholders to identify a specific adaptation to each one of their programs.
Fresno	Suicide Prevention Follow Up Call Program	4/22/2021	\$ 1,000,000.00	Fresno County requested up to \$1,000,000 of Innovation spending authority to increase linkage to appropriate behavioral health services and gather real-time data and insight into suicide prevention efforts in the county.
Ventura	Mobile Mental Health	5/27/2021	\$ 3,080,986.00	Ventura County requested up to \$3,080,986 of Innovation spending authority to establish a mobile mental health program, which will serve as a way to reach out to otherwise disenfranchised persons and communities, reduce stigma and increase access to mental health services.
Santa Clara	Trusted Response Urgent Support Team-TRUST-(formerly Community Mobile Response)	5/27/2021	\$ 27,949,227.00	Santa Clara County requested up to \$27,949,227 of Innovation spending authority to develop and implement a crisis response system, utilizing a community-based approach, to provide immediate crisis services for those in need.
Marin	From Housing to Healing, Re-Entry Community for Women	5/27/2021	\$ 1,795,000.00	Marin County requested up to \$1,795,000 of Innovation spending authority to establish a supportive services/housing program, designed to address severe mental illness, adverse childhood experiences (ACEs), a screening tool for childhood trauma, and substance use disorders in women, including transwomen, after their release from jail.

Sonoma	Instructions Not Included	6/1/2021	\$ 689,860.00	Sonoma County requested up to \$689,860 in Innovation spending authority to increase access to mental health services through in-home based services and target the needs of new fathers and engage them in the care of their child and partner by screening new fathers, identifying as male, for Male Postpartum Depression (PPD) using the Edinburgh Postnatal Depression Scale (EPDS with modified scoring for males) and Adverse Childhood Experiences (ACEs) questionnaire.
Sonoma	Collaborative Care Enhanced Recovery Project (CCERP)	6/1/2021	\$ 998,558.00	Sonoma County requested up to \$998,558 of Innovation spending authority to work in partnership with the Adult & Aging Division within the Sonoma County Human Services Department and Santa Rosa Community Health Centers (SRCH) to increase access to unserved and underserved groups, specifically focusing on LatinX older adults to improve symptoms associated with depression.
Sonoma	New Parent TLC	6/22/2021	\$ 394,586.00	Sonoma County requested up to \$394,586 of Innovation spending authority to create a program to identify, refer, and treat parents who are experiencing parental depressive symptoms by utilizing a gatekeeper model to help identify and intervene with new parents early on to avoid the increasing severity of parental depression. Gatekeepers for this project includes childcare providers, cosmetology providers, as well as employees working for medium to large organizations.
Stanislaus	FSP Multi-County Collaborative	6/24/2021	\$ 1,757,146.00	Stanislaus County requested up to \$1,757,146 of Innovation spending authority to join the Full-Service Partnership (FSP) Multi-County Collaborative for existing County specific FSP programs, originally approved by the Commission starting with Fresno County on June 25, 2019. Full-Service Partnerships are designed to support individuals requiring services with the most severe mental health needs and co-occurring disorders by incorporating a “whatever it takes” approach.

Stanislaus	Early Psychosis Learning Health Care Network	6/24/2021	\$ 1,564,633.00	Stanislaus County requested up to \$1,564,633 of Innovation spending authority to join the Learning Health Care Network (LHCN) for existing Early Psychosis (EP) programs, a multi-county collaborative approved by the Commission on December 17, 2018. This project will develop the infrastructure for the LHCN in order to increase the quality of services and improve outcomes by utilizing an application (digital platform) to gather real-time data from clients and their family members in existing EP clinic settings and includes training and technical assistance to EP program providers.
Mariposa	PAD Multi County Collaborative	6/24/2021	\$ 517,231.00	Mariposa County requested up to \$517,231.000 in Innovation spending authority to work in partnership with participating Counties, various contractors, stakeholders, peers with lived experience, consumers, and advocacy groups to provide resources relative to PADs training and a toolkit, as well as create a standardized PAD template and a PADs technology-based platform to be utilized voluntarily by participating Counties. Psychiatric advance directives (PADs) are advance directives used to support treatment decisions for individuals who may not be able to consent to or participate in treatment decisions because of a mental health condition.
Orange	PAD Multi County Collaborative	6/24/2021	\$ 12,888,948.00	Orange County requested up to \$12,888,948.00 in Innovation spending authority to work in partnership with participating Counties, various contractors, stakeholders, peers with lived experience, consumers, and advocacy groups to provide resources relative to PADs training and a toolkit, as well as create a standardized PAD template and a PADs technology-based platform to be utilized voluntarily by participating Counties. Psychiatric advance directives (PADs) are advance directives used to support treatment decisions for individuals who may not be able to consent to or participate in treatment decisions because of a mental health condition.

Shasta	PAD Multi County Collaborative	6/24/2021	\$ 630,731.00	Shasta County requested up to \$630,731.000 in Innovation spending authority to work in partnership with participating Counties, various contractors, stakeholders, peers with lived experience, consumers, and advocacy groups to provide resources relative to PADs training and a toolkit, as well as create a standardized PAD template and a PADs technology-based platform to be utilized voluntarily by participating Counties. Psychiatric advance directives (PADs) are advance directives used to support treatment decisions for individuals who may not be able to consent to or participate in treatment decisions because of a mental health condition.
Monterey	PAD Multi County Collaborative	6/24/2021	\$ 1,978,237.00	Monterey County requested up to \$1,978,237.000 in Innovation spending authority to work in partnership with participating Counties, various contractors, stakeholders, peers with lived experience, consumers, and advocacy groups to provide resources relative to PADs training and a toolkit, as well as create a standardized PAD template and a PADs technology-based platform to be utilized voluntarily by participating Counties. Psychiatric advance directives (PADs) are advance directives used to support treatment decisions for individuals who may not be able to consent to or participate in treatment decisions because of a mental health condition.
Fresno	PAD Multi County Collaborative	6/24/2021	\$ 500,000.00	Fresno County requested up to \$500,000 in additional in Innovation spending authority to continue working in partnership with participating Counties, various contractors, stakeholders, peers with lived experience, consumers, and advocacy groups to provide resources relative to PADs training and a toolkit, as well as create a standardized PAD template and a PADs technology-based platform to be utilized voluntarily by participating Counties. Psychiatric advance directives (PADs) are advance directives used to support treatment decisions for individuals who may not be able to consent to or participate in treatment decisions because of a mental health condition. Fresno was originally approved by the Commission in January 2019 up to \$950,000 in Innovation spending authority.

Humboldt	Resident Engagement and Support Team (REST)	6/24/2021	\$ 1,617,598.00	Humboldt County requested up to \$1,617,598 of Innovation spending authority to test whether assigning case managers and peer coaches to consumers, who recently became housed, will help them maintain their housing.
Imperial	Holistic Outreach Prevention and Engagement (HOPE)	6/24/2021	\$ 3,455,605.00	Imperial County requested up to \$3,455,605 of Innovation spending authority to provide holistic treatment options following a psychiatric emergency for youth and young adults, ages 13-25.
Butte	Physician Committed	6/24/2021	\$ 1,252,631.00	Butte County requested up to \$1,252,631.000 in Innovation spending authority to promote interagency collaboration by partnering with the Butte-Glenn Medical Society, Butte County Office of Education and local primary care physicians in order to expand their ability to identify and intervene with adolescents who have risk factors of experiencing mental health and substance use issues.
Merced	Transformational Equity Restart Program (TERP)	6/24/2021	\$ 3,624,323.39	Merced County requested up to \$3,624,323.39 in Innovation spending authority to address the need to provide mental health services with low barrier access, linkages, and support for those who are justice involved, prior to release by focusing on reducing barriers, and providing access and linkages by screening incarcerated individuals.
San Luis Obispo	SoulWomb	6/25/2021	\$ 576,180.00	San Luis Obispo County requested up to \$576,180 of Innovation spending authority to increase the quality of mental health services available to individuals receiving services as part of the forensic mental health (court and diversion) population by introducing a holistic, mindfulness-based, sound meditation treatment support practice that clients can incorporate into to their Wellness and Recovery Action Plans and access within the existing Justice Services clinic.
San Luis Obispo	Behavioral Health Education and Engagement Team (BHEET)	6/22/2021	\$ 610,253.00	San Luis Obispo County requested up to \$610,253 of Innovation spending authority to test the efficacy of adopting a peer-based outreach and engagement model within the community mental health system to determine if engaging community mental health patients early, with short-term case management by individuals with lived experience, will lead to improved follow-through with referrals to traditional, longer term services and improved mental health outcomes.

Yolo	Planning and Stakeholder Input Process for Crisis System Re-Design and Implementation	6/22/2021	\$ 114,000.00	Yolo County requested one-time use up to \$114,000 of Innovation funding allocation attributed to Crisis NOW for INN-related Community Planning for Crisis System Re-Design and Implementation. This funding will go toward the development and implementation of a new approach to crisis response for all citizens in the county, including Medi-Cal recipients and those without insurance, based on the Crisis NOW principles.
Santa Clara	Independent Living Empowerment Project (ILEP)	6/22/2021	\$ 990,000.00	Santa Clara County requested up to \$990,000 in MHSA Innovation funding to create a voluntary supportive network for independent living facilities (aka room and boards) to include resources for homeowners (training and education) along with support for client/tenants through Peers with lived experience
Colusa	Social Determinants of Rural Mental Health	6/22/2021	\$ 498,812.00	Colusa County requested up to \$498,812 in Innovation spending authority to improve outreach to unserved community members with mental health needs and to better understand whether and how a social determinants of health framework can improve county approaches to prevention, early intervention, and access.
Amador	Comprehensive Community Support Model to Address Student Mental Health	6/29/2021	\$ 665,000.00	Amador County requested up to \$665,000 of Innovation spending authority to create a community-school comprehensive support model to incorporate into their system of care. The model will build upon an existing Student Assistance Program and leverage interagency and community collaboration.
Madera	Project DAD	6/29/2021	\$ 930,401.56	Madera County requested up to \$930,401.56 of Innovation spending authority to increase access to mental health services for new birthing persons including fathers. To ensure inclusivity of all new parents, the County and their contractor have adopted "birthing persons" in place of mothers and fathers.
