Subject: Public comment on IPF November 20 meeting

Hello, I'm submitting written comment as I cannot come back for the continuance of public comment later today.

Hello my name is Alex Filippelli and I'm a resident of Santa Cruz county. I urge the commission to move forward with version 4.0 of their framework and try to get the RFPs complete by your January 2026 meeting. On the matter of not limiting IPF funding to only people with severe mental illness, I want to thank commission staff for recognizing this concern and changing the language of the framework document. I hope that when the RFP comes out this language is clear and does not discourage people providing CDEPs or prevention programs from applying.

Thank you! Alex
