Local Directing Change Award and Recognition Ceremony

San Bernardino County

San Bernardino County organizes a commendation event to honor local filmmakers who have submitted their films to the annual Directing Change Film Contest. Filmmakers, along with their families, are extended invitations to attend a screening event where their films are presented for public viewing. Moreover, local community members and stakeholders can assess and score the films, leading to the presentation of local awards in conjunction with the statewide recognition they already receive. The event garners support from our esteemed local leaders and community partners, with recognition also being extended to filmmakers by our local elected officials. San Bernardino County had 40 submissions and 105 youth participants in 2023.
